Betty Strohfus was a baymate of Myra's. Myra is a 44-1 Trainee. Betty said Myra washed out at some point during training, got in her little red convertible, and drove away. Betty said she was going to call you this morning anyway; she would be happy to talk to Myra's daughter anytime.

Kim, Myra (Delight) Stockton is not listed in the WASP Alphabetical Roster or on the list of 44-1 Trainees. Please correct TWU records and files and consider contacting Nancy to get daughter's information. She may be willing to write a bio on her mother for your files. Also, please inform 44-1 class secretary.

Sarah, if the Newsletter hasn't flown yet, please include this discovery. Will be of interest.
